

We simply make cash  
**faster, safer and smarter.**

## Believe in Cash

You hear a lot about the cashless society these days. But for the consumer, cash is still king: **indeed there is more cash in circulation now than ever before.**

But cash has its costs in terms of counting, counterfeiting, transportation and reconciliation. How can your business make cash pay?

SafePoint takes the hard work out of counting, sorting and banking. It's based on **unique technologies** and **strong partnerships** with industry leaders – and backed by the Loomis guarantee of **clarity, reliability and trust.**

### Outsourcing

Retailers and banks are looking to outsource cash services to cut costs and focus on their core businesses. In-house cash specialists are expensive – so they need partners who handle cash right across the board.

### Automation

A vast ecosystem – including vendors, software editors, and providers of services and maintenance – has sprung up to service ATMs, recycling ATMs, smartsafes and other cash-bases systems.

### Payment

There are more ways to pay than ever before: cash, cheques, contactless, mobile and more. Retailers need partners who understand the industry, stay ahead of trends and have the right skills.

## Services

The payment service chain is increasingly complex, with an ever-growing number of providers:

- **Equipment owners**  
including ATMs, Deposit safes and payment terminals
- **Equipment installation specialists**
- **Deployment and integration experts**  
including project management for large integrations
- **Maintenance and upgrade technicians**
- **Cash logistics providers**
- **Cash sorting**, counting and reconciliation

It all adds up to more complexity for companies who would rather focus on their core businesses.

## One solution for all your cash needs

Loomis has created a single service offer that covers every payment solution and cash management need. Combining more than 20 years of experience with world-leading partners, it is a true one-stop shop for all your outsourcing needs.

# Cash made simple

## Cash process professional services

All your cash data at your fingertips!

### The future of cash in your business

Loomis has created a range of professional services designed to help our customers enjoy the flexibility, availability and convenience of cash, now and in the future. Combining our SafePoint cash handling solutions with ATM services, payments and more, we offer a single point of contact for all your outsourcing needs.

Loomis is bringing cash services into a new era by:

- **hiring** and developing people with technical and project management skills, as well as talented cash management architects,
- **investing** in new facilities for ATM preparation, management and maintenance,
- **creating** new partnerships for services including ATM replenishment and maintenance.

## SafePoint Professional Services help our customers:

- **Optimise** cash process infrastructure to cut costs and increase value,
- **Manage** large scale deployments: large retail chains or front office and back office optimisation,
- **Prepare and deploy** best in class cash management and payment technology platforms,
- **Install and maintain** new hardware and software,
- **Deliver** on-going staff training.

We help with the choice, deployment and management of cash technologies, including ATMs, recycling ATMs, deposit safes, front office payment solutions, back office recycling, till preparation and more.

## Our Aims

### 1. Cash made simpler

by reducing the complexity of cash processing, we make cash simpler for you and your customers.

### 2. Cash made cheaper

by accelerating cash deposits and leveraging our global operation and infrastructure allows, we cut the costs of processing cash.

### 3. Cash made digital

We believe in cash, and we are investing in its future. Through partnerships with the best industry vendors of equipment, technology, business intelligence and more, we're making that future real.

We're training a field force, hiring the world's best industry professionals and investing in the infrastructure, technology and expertise our vision demands. Together with our own SafePoint solutions, that means we offer a true "one stop shop" service platform. We combine expert consulting and analysis with our ability to design, deploy and maintain tailor-made integrated solutions for your business.
