

Loomis Coin, Note & Float Delivery Services

Coin and change delivery solutions

Coin and change delivered when you need them - even at short notice.

If your business, shops or public sector service outlets need regular deliveries of coins, Loomis can provide the exact service you've been looking for.

When you work with us, we ensure you have the coin you need, when you need it — and that all your surplus coin is collected, counted and banked securely and as quickly as possible.

When delivering and collecting coin, we take full liability while it is in our care — and we offer you the same high levels of security as our normal Cash & Valuables in Transit service.

This reduces opportunities for cash shrinkage and protects your staff from the risk of attack — trips to the bank become a thing of the past.

Loomis coin services are reliable, fast and secure.

When you need coin, we make sure you get it — meaning you don't have to worry about whether you'll have the coin you need to keep your operations running smoothly and profitably.

Fast coin ordering and delivery

Ordering your coin is easy - simply phone our 24-hour automatic ordering system to request your coin (and notes, if required).

If you place your order before midday, then your cash will be delivered from your local Loomis branch the following day — in the exact quantities and denominations you asked for.

Secure coin collection

If you take a lot of coin from your customers, we can collect it daily or whenever you need to bank it.

We collect coin as part of our normal cash collections or use a specialist bulk coin vehicle, depending on the volume of coin to be collected.

Whatever the denomination or volume, Loomis' coin & float delivery services can meet your needs

Your coin is then processed at one of our coin centres and then deposited at the bank of your choice.

And if you need us to collect coin at short notice, just call us — we'll be there within 24 hours.

What our customers say:

"Our amusement arcades need a huge supply of £1 coins. Our previous supplier was unreliable and up to £20,000 could get locked in its system for months at a time. We didn't get our money fast enough and we lost interest on it.

Since switching to Loomis, we've received a very personal service — an efficient supply of coin by friendly operatives who are known to our staff. Best of all, Loomis is responsive and flexible. If we need extra coin or stocks run low, they're there to help — and they deliver on their promises."
