

Managing **cash** in society.

SafePoint
CASH MADE SIMPLE

There's a SafePoint solution perfect for your business!

SafePoint takes the hard work out of counting, sorting and banking takings. It's based on unique technologies and strong partnerships with industry leaders – and backed by the Loomis guarantee of clarity, reliability & trust.

D25 Obolus

The D25 is the heavyweight of the Loomis SafePoint Boutique range, offering impressive banknote capacity, easy deposit, processing at 300 notes per minute and total peace of mind.

As your recommended Safepoint smartsafe, the D25 Obolus connected safe is at the heart of your SafePoint solution and, as part of a solution designed to match your business, it's like going to the bank without leaving your store.

- Easy deposit of notes and coins throughout the day – helping reduce shrinkage and risk
- Automatic credit* direct to your company bank account
- Instant insurance*, monitoring and registering of all deposits
- Secure transport to Loomis cash facilities for sorting, counting and reconciliation
- Digital services for total remote management of all your cash handling needs

* Subject to agreement with banking partner

Optional extra with v2 Coin Module
